# Burn-off Ovens

<http://www.whitelegg.com/product-search/burn-off-ovens>

---

**Gas Burn off oven for electric motor winding removal Featuring process automation, process recording and remote monitoring via an internet connection. The PLC program allows full control of the burning process: Menus, heating ramps, temperature/time graphs display, storage and printing (over external printers or local network), total, average and instant fuel /power consumption, active alarms and alarms log, etc. Internet remote access to the oven's PLC and touch screen offers a full on-line support to our customers any time and from anywhere in the world.**

- Specifically designed for removing hydrocarbon coatings from electric motors by ensuring a reduced oxygen atmosphere around the load. This prevents any possibility of ignition of the coating.
- Rate of heat generation is tightly controlled to match the capability of the after burner and comprehensive safety features maintain the stability of the process.
- Emissions to the atmosphere consistently meet strict environmental standards.
- Low operating costs
- Pollution free process
- Explosion relief doors fitted as standard
- Fully automatic gas burner using natural gas or LPG
- Integral afterburner with reliable emission control
- Full CE marking and build to ISO 9001
- Standard and customised sizes available

Model	Inner dimensions above the cart H x W x D cm
2BOV-01	70 x 90 x 90 supplied with manual 1000kg capacity loading trolley
2BOV-02	90 x 90 x 120 supplied with manual 1000kg capacity loading trolley
2BOV-02A	90 x 120 x 120 supplied with manual 1000kg capacity loading trolley
2BOV-02B	90 x 120 x 15 supplied with manual 1000kg capacity loading trolley
2BOV-05	120x 120 x 210
2BOV-05A	120 x 120 x 150
2BOV-05B	120 x 120 x 210
2BOV-05C	120 x 150 x 210
2BOV-06	160 x 180 x 210
2BOV-07	170 x 210 x 240
2BOV-07A	170 x 210 x 300
2BOV-09	200 x 180 x 300 supplied with motorised 3000kg capacity loading trolley

---

2BOV-09A	200 x 210 x 210 supplied with motorised 3000kg capacity loading trolley
2BOV-09B	200 x 240 x 210 supplied with motorised 3000kg capacity loading trolley
2BOV-09C	200 x 240 x 240 supplied with motorised 3000kg capacity loading trolley
2BOV-11	230 x 240 x 240 supplied with motorised 5000kg capacity loading trolley
2BOV-11A	230 x 300 x 300 supplied with motorised 5000kg capacity loading trolley
2BOV-13	260 x 270 x 270 supplied with motorised 5000kg capacity loading trolley
2BOV-15	Other sizes and trolley capacities available on request
