
Superclean Dry Ice Blaster

<http://www.whitelegg.com/product-search/superclean-dry-ice-blaster>

For the non destructive cleaning of electric motor housings, stators and rotors. Very efficient system that uses no harmful chemicals

EY-4000 Dry Ice Blasting Machine

- Small, light and maintenance free
- Dual blast hose technology
- Designed specifically for areas where high ambient air humidity often make dry ice cleaning difficult.
- Features 2 different pressure ranges, one for rugged applications and one for very sensitive cleaning of electronic components for example
- Superb results when cleaning electric motors

Dry ice hopper capacity 20kg

Dry ice feed rate 0 - 50kg/h

Compressed air connection 1 inch BSP

Weight (empty) 48 kg

Working ranges: low pressure 2-10 bar, standard range 5-15 bar

Compressed air hoses 16 bar

Dry ice hose 10 bar

Blast Unit 15 bar
